

Create unlimited lengths by linking the sections together

Modular link system

Product Information

Kleen-Wave is perfectly suited for the leisure industry where the potential of slipping on wet floors is likely. Kleen-Wave offers an extremely cost effective way to avoid accidents and reduce costly claims.

Ideal for all wet areas including, swimming pools, showers areas, changing rooms and other areas regularly exposed to water. The curved design allows water to easily drain off, providing a slip resistant, safe and dry surface. Kleen-Wave is also warm and comfortable under foot.

Ideal for large area coverage with the Kleen-Wave interlocking system.

Hygienic – Kleen-Wave is treated with anti-microbial additive for protection against the growth of mould, mildew, fungi and odour causing germs. Kleen-Wave is designed to prevent the development and growth of bacteria and it resists body oils and general chemicals.

Features

- Reduced risk of slip injury
- Indoor or outdoor use
